Republican mass meeting

"Your notice of the meeting to-night is received. I would be glad to meet my rlends and constituents of Salem and this privilege is denied me. I can never forget their unyielding devotion to Republican principles and their uniform kindness to me from my first candidacy for Congress in 1886 to the present time. Please present to those assembled my appreciation and good WILLIAM M'KINLEY."

BIG RALLY AT OYSTER BAY.

Governor Roosevelt Makes a Speech at His Long Island Home.

NEW YORK, Nov. 5 .- Governor Rooseveit wound up the Republican national campaign to-night by delivering an address at Oyster Bay, L. I., before one of the largest gatherings that ever assembled at that place. Prier to the meeting there was a parade led by five bands. William Howard, president of the McKinley and Roosevelt Club of Oyster Bay, presided over the meeting. When the Governor appeared he was greeted by long and continued applause. He said in part:

"In this campaign I have not only aphave the honor and integrity of the country at heart. I have appealed to higher motives than partisanship. I have appealed to honor. I have appealed to all, whether they agree or disagree with me in my politics, to stand by their country. I have appealed to the teachings of Jefferson and Jackson and of Lincoln. Mr. Jefferson was an expansionist and he it was who was expanded over Nebraska and governed the Indians without their consent.

"Mr. Croker says he is in politics for his pocket. I am not criticising him, only quoting him. As for Jackson he was for hard money, expansion and honor for the son's grave Jackson would turn over in his grave with disgust. "We must beat Bryan and also stamp

He can't make the same pointer count twice. SITUATION IN MINNESOTA.

McKinley Will Carry the State, but Vote for Governor May Be Close. ST. PAUL, Minn., Nov. 5 .- This year's campaign in Minnesota has been closely contested at nearly all points, although railroad commissioners. Bryan, Roosevelt, Woolley, Hanna and othe outside speakers have been in the State and an active campaign has been made in many counties where heretofore there had been only one

ticket named. The Republicans closed their campaign in this city to-night with four meetings. A lette: from United States Senator Davis was read in support of McKinley. Senator Knute Nelson made three speeches in different parts of the city and a grand rally at the auditorium was addressed by General E. S. Bragg, of Wisconsin, Hon, W. H. Polson and Hon. Daniel W. Lawler, Republican and Democratic Chairmen former Democratic national committeeman

from Minnesota. The election of Minnesota McKinley electors seems assured, the Democratic committee only expressing a belief in the possibility of Bryan carrying the State without actually claiming it. The Republicans place the McKinley plurality at from 50,000 to 75,000. The re-election of Governor Lind over Captain S. R. Vansant is claimed by figure given by the Republicans in their claim for Vansant. The result for Governor will undoubtedly be close. The Republicans will elect the balance of their State ticket down to railroad commissioners, on what the Democrats have put up a stiff fight, making the result doubtful.

REPUBLICANS ELATED.

Fine Weather Means a Big Vote for

McKinley in Illinois. CHICAGO, Nov. 5.-Both parties in Illinois have completed their final arrangements and are confident of the result of tomorrow's voting. Never have the plans of camapign managers in this State been more comprehensive or laid with greater care and no presidential campaign since that of Blaine and Cleveland in 1884 has been fought out with greater energy in this State than the one that has just closed. Both Democratic and Republican managers have made every preparation against unlawful action at the polls by their opponents, but there has been less tack of such things this year than in prior campaigns. The chances are that there will be no more fraudulent voting than occurs

at every city election. The board of election commissioners late at night commenced the distribution of ballots to the various precinct judges, but although carefully systematized, the work will be hardly completed by daylight. Because of the great number of State and county officials to be voted for the ballots this year are about the size of a small cir-

A very full vote will be polled in the State at large and especially in Chicago and Cook county. The fight here has been of the warmest description and every effort will be made to bring the full voting strength of both parties into the field. The Republicans, in particular, are elated at the prospect of fine weather to-morrow and say it means their sure success. The Democratic managers declare that weather will make no difference and that rain or shine the election is sure to result in a sweeping Democratic triumph.

IN MASSACHUSETTS.

Republicans Say 100,000 for McKinley -Democrats Concede Only 50,000.

BOSTON, Mass., Nov. 5.-Although the will cast their ballots to-morrow in favor of McKinley and Roosevelt, just what the size of this majority will be and just how many Republican congressmen will be elected is a matter upon which the party leaders fail to agree. The Republicans are confident that President McKinley will have at least 100,000 votes more than Mr. Bryan, while the Democrats believe that 50,000 will be nearer the mark. Four years ago the Republicans carried the State by 175,000 plurality, but dissensions in the Democratic ranks cut a wide swath in the ordinary party vote. This year this disaffection has almost entirely disappeared. It is believed that Governor Crane will run somewhat ahead of the national ticket, As usual, the Republican State candidates will be elected, with the exception, perhaps, of auditor, as there is a strong sentiment, especially among the grand army veterans, against Henry F. Turner, of Malden, who defeated the incumbent, John W. Kimball, of Fitchburg, in the convention. It will not be surprising, therefore, if William G. Merrill, the Prohibitionist candidate for the office, is elected. As for the congressmen, nine Republicans and one Democrat are practically sure of election. while in two other districts indications also favor the Republicans. McKinley Will, Therefore Carry Connecticut by Increased Plurality. NEW HAVEN, Conn., Nov. 5 .- Observers who are not intensely partisan predict a safe McKinley margin and a probable Republican victory of the State ticket. On the latter point, however, they are careful not to express in figures their opinion. The two State committees to-day issued new statements. Each was full of confidence and the claims were more emphatic toan in the statements of last week. The Republicans insist, with increased figures. that a wholesale victory for that party is in the air. The Democrats are more combative than heretofore, and in addition to tion in the doubtful column of their tables and edge it over to the Bryan column. IOWA WILL REMAIN TRUE.

Than Seventy-Seven Thousand. DES MOINES, Ia., Nov. 5.-The chief feature of the day before election in lowa was a statement issued by Chairman H. D. Weaver, of the Republican State central committee, in reply to the public claims by Chairman Huffman, of the Democratic State central committee, that the Democrats will carry fifteen more countles in Iowa this year than heretofore, will elect congressmen in the First, Second, Sixth and Eighth districts, and that they have more than an even show to win in a fifth district, which Mr. Huffman declined to but is known to be the Fourth, where he feels that the 7,000 or more plurality for Haugen two years ago can be overcome. In Chairman Weaver's statement he directs attention to the prichairman, recommending the organization of vigilance committees to watch the count of Iowa returns, and says in part: "There have never been any attempts to introduce Southern methods in Iowa campaigns, and the Republicans do not propose to stand it at this time. We know we have the votes to carry the State by an overwhelming majority. These votes will be Hall says that the whole State ticket will polled and counted. Four years ago McKinley's plurality in the State was 295,072, of which plurality Philadelphia furnished 113,139. The highest previous plurality in the State for a presidential candidate was 135,548 for Grant, in 1872. In 1892 Harrison's plurality was 63,747. There is, therefore, every indication of a considerable reduction in McKinley's figures of four years

EITHER IS MISTAKEN.

Both Claim Maryland by 10,000.

BALTIMORE, Md., Nov. 5 .- On the night before election the leaders of both political parties profess to be confident of victory at to-morrow's balloting, and both sides claiming the State by pronounced majorities. OHIO DEMOCRATS WILD.

CINCINNATI, Nov. 5.-All speculation gains in the cities and Republican gains in the rural districts of Ohio, John R. Mc-Lean is here trying to reduce the Republican plurality in Hamilton county one-half. This county gave McKinley almost 20,000 plurality four years ago. Republican State Chairman Dick says his poll shows more than 80,000 for McKinley in Ohio, and seventeen of the twenty-one congressmen. Democratic State Chairman Long claims Bryan will carry Ohio, "unless prevented

by coercion and purchase." Both sides are issuing notices and warnings about the use of pencils and all sorts of frauds. There is much excitement in some cities and especially in the towns of close congressional districts. It was thought that there would be no congressional contests here, but much fighting developed today between Bromwell, (Rep.) and Kettler, (Dem.) in the Second district.

Mother Hubbard Parade.

WHEELING, W. Va., Nov. 5.-Wheeling's "Mother Hubbard" parade, the evening before presidential elections, when the members of the marching clubs of all parties come together and join in a great demonstration in honor of the woman's sufmajority of the voters in Massachusetts frage candidate for President, is unique, and original with this city. To-night's affair, in honor of Mrs. Catt, was the largest on record, fully 2,000 marchers being in line. The real woman's suffragists, however, have on this occasion entered an emphatic protest against the demonstration, but the opposition seemed to add to the favor with which the public looked at it. Over 30,000 people lined the streets and laughed at the queer and ridiculous costumes the marchers wore. The situation, tc-night, is unchanged. The Republicans

continue to claim the State by over 15,000.

Wisconsin Conceded to Republicans. MILWAUKEE, Wis., Nov. 5 .- Robert M. La Follette and Louis G. The State is, however, apparently safely Republican. An increase of 10,000 or 12,000 votes will make the majority rather uncertain. It is believed now that every voter will exercise the franchise. A close fight will be made here for state Senate member holding over until after the next senatorial election.

Widely Divergent Views. ST. LOUIS, Nov. 5 .- Democrats express the utmost confidence in their ability to place Alexander M. Dockery in the gubernatorial chair by a plurality of 30,000 and upwards, and of giving the national ticket a majority of from 40,000 to 45,000. The Republicans are equally confident. Many believe McKinley and Roosevelt will have a slight majority over Bryan and Stevenson, and that Railroad Commissioner Joseph vate circulars sent out by the Democratic | Flory will be entitled to take his seat in the Governor's chair. Others, not so sanguine, think that the Democratic national ticket will show a greatly reduced plurality. The Democrats say they will elect thirteen out of fifteen congressmen to be voted for, and the Republicans expect to elect five out of the fifteen, a gain of two.

Kansans Eager for the Ballot.

TOPEKA, Kan., Nov. 5.-There has been no important development in the political situation in this State since Saturday night. Both sides to-night profess great eagerness for the battle to-morrow, and the utmost confidence in the result. The Republicans claim a victory for McKinley by 25,000 plurality, the success of the State ticket by a plurality somewhat less, the election of eight congressmen and a majority on joint ballot in the Legislature. The fusionists concede one congressman to the Republicans, but claim everything else, placing Bryan's plurality at 16,000. With fair weather, for which the indications are now

RENO. Nev., Nov. 5 .- On the surface the indications are that the result of to-morrow's election in Nevada will be close. The Republicans have made a hard fight to elect Farrington to Congress and the chairman of the Republican state central committee says Farrington will be elected by 500 majority. The Democrats, on the other hand, feel confident that they will carry the State, as in 1896 for Bryan, and return Newlands to Congress. Every indication points to fair weather and a large

PORTLAND, Ore., Nov. 5 .- Oregon will vote for presidential electors only to-morrow, and the indications are that McKinley will have a plurality of at least 10,000. PORTLAND, Me., Nov. 5 .- The indications to-night are that about the usual presidential year vote will be cast. It would hardly seem possible to obtain more conclusive evidence as to the pected to carry Virginia by about 20,000, and deterioration of the force once known as "the finest." Even in the days when the brutal Inspector Williams was one of the lights of the force, reliance was placed upon Inspector Byrnes's detectives to keep down the worst crimes.
